

Strength in Scotland

COMPCO
Fire Systems

Providing fire protection and security in Scotland

When it comes to safeguarding your people and property from fire, it's good to know your chosen fire-protection contractor is never far away.

Since COMPCO established its Scottish regional office in 2002, we have become the preferred contractor of many blue chip companies throughout the area.

With a local team of over twenty design engineers, project managers, service personnel and support specialists, COMPCO is dedicated to providing the region with the finest selection of services. This means you can rely on our installations to satisfy every specific legislative requirement in Scotland.

While serving many major companies in the retail and industrial sectors, we also supply fire protection solutions to schools and colleges, and sprinkler systems to residential and care homes. From designing, procuring and assembling sprinkler systems, to installing and commissioning fire-engineering solutions, we will tailor our service to meet the exact needs of your project.

What is more, as COMPCO Fire Systems is LPCB, BAFSA, Construction Line and Safe Contractor approved, you can be sure our service, workmanship and safety meet the highest possible standards.

Comprehensive fire protection solutions

COMPCO offers complete nationwide fire protection solutions, from consultancy to design and installation. Our portfolio of products and services includes:

- Automatic sprinkler systems
- Hydrant mains
- Wet and dry risers
- Water mist sprinkler systems
- Gas suppression
- Detection and alarms
- Service and maintenance
- 24 hour emergency call out
- **Private sector:** Retail, warehousing, manufacturing, waste recycling, offices, energy plants and industrial complexes
- **Public sector:** Schools, universities, student accommodation, hospitals, care homes and residential units
